NEW JERSEY FUTURE

Climate-Ready Combined Sewer Overflow (CSO) Solutions Forum

Municipal leaders and legislators can act now to help protect their communities from the devastating impacts of climate change. Be part of the conversation!

Tuesday, January 28, 2020 - 6:00 pm to 8:00 pm
Elizabeth Public Library (main branch)
11 South Broad Street, Elizabeth NJ

There is no cost to attend but registration is required.

Sign up now to reserve your spot.

Questions? Contact Mo Kinberg

Join us for a conversation with municipal leaders, state agency representatives, and engineers to learn how climate change affects communities and how CSO Long Term Control Plans can be used to prepare for the future. Infrastructure improvements worth billions of dollars are being designed to address CSOs. As these plans are implemented over the next 30 years, will they withstand 30 years of climate change? Learn how municipalities can address challenges and explore solutions that link climate change planning with sewer system upgrades.

Speakers (more to be confirmed):
Dave Rosenblatt, New Jersey Chief Resilience Officer
Marjorie Kaplan, Dr.P.H., Associate Director, Rutgers Climate Institute, Rutgers University
Pete Kasabach, Executive Director, New Jersey Future
Kim Gaddy, Environmental Justice Organizer, Clean Water Action
Andy Kricun, PE, BCEE, Chief Engineer, Camden County Municipal Utilities Authority
Christian Bollwage, Mayor of Elizabeth
