

Climate-Ready Combined Sewer Overflow (CSO) Solutions Forum

Municipal leaders and legislators can act now to help protect their communities from the devastating impacts of climate change.
Be part of the conversation!

Tuesday, January 28, 2020 - 6:00 pm to 8:00 pm
Light refreshments will be available.
Elizabeth Public Library (main branch)
11 South Broad Street, Elizabeth NJ

This event has been certified for the following continuing education credits: American Institute of Certified Planners (2.0 certification maintenance credits); NJ State Board of Professional Engineers & Land Surveyors (2.0 CPC credits)

There is no cost to attend but registration is required.

[Sign up now to reserve your spot.](#)

Questions? Contact Mo Kinberg (mkinberg@njfuture.org)

Join us for a conversation with municipal leaders, state agency representatives, and engineers to learn how climate change affects communities and how CSO Long Term Control Plans can be used to prepare for the future. Infrastructure improvements worth billions of dollars are being designed to address CSOs. As these plans are implemented over the next 30 years, will they withstand 30 years of climate change? Learn how municipalities can address challenges and explore solutions that link climate change planning with sewer system upgrades.

Speakers

- J. Christian Bollwage, Mayor of Elizabeth
- Dave Rosenblatt, Chief Resilience Officer, The State of New Jersey
- Janice Brogle, Acting Director, Division of Water Quality, New Jersey Department of Environmental Protection
